

NEW FUEL STORAGE FACILITY AT MACAO FERRY TERMINAL

Design and Supervision Services

Client / Employer Sociedade de Jogos de Macau, S.A.

Service Design and Supervision Services provided by CONSULASIA, LDA.

Investment Approx. MOP 40 Million

Contract price MOP 3,054,000

Time Schedule April 2007 to March 2008

Description of the Project

During the Detail Design Stage, CONSULASIA was responsible for the whole FSF design except for the Fuel Discipline and related Electrical and Mechanical Installations (ex: internal electricity distribution among the compound, control cables, equipments in the control rooms, all the electrical and mechanical installations related to Fuel Compounds).

CONSULASIA was responsible for the design of all the civil works, building services, fire service and external power supply and lighting and Nam Kwong was responsible for the Fuel related specialties and internal power supply and lighting.

CONSULASIA ensures the coordination between Nam Kwong and the end users in order to assure that the detailed design of the fuel compounds was done according with the requirements.
