

OCEAN GARDEN FOOTBRIDGE

(general coordination and supervision works
of the build and design)

Client / Employer Government of the Macao Special Administrative Region
Infrastructure Development Office

Service General Coordination and Supervision Works of the Build and Design by CONSULASIA, LDA.

Investment MOP 9.9 Million

Contract Price MOP 662,750

Time Schedule September 2009 to April 2010

Description of the Project The installation of footbridge along "Avenida do Oceano" will ease and make the crossings from the Ocean Garden to the seaside park safer and free from traffic obstructions caused by crossing the street through the existing zebra crossing. Crossing the street through the footbridge will also be safe and free from unexpected road accidents and on the other hand will not disturb the flow of traffic on the said crossings.

The build and design contract was awarded to "Long Chon Construction and Engineering Company Limited".

While the General Coordination and supervision service contract was awarded to CONSULASIA for its reputable work results for the Office for the Development of Infrastructures.
